## Memo to Readership — August

- **A New Era for Vekllel Posts — “*Stories from the Horizon*”**
  - *Stories from the Horizon* is a developing series of artworks from Vekllel’s boroughs, depicting life and landscape in Vekllel in all its glory. From its shining capital to its volcanic highlands and frigid extremities, *Stories from the Horizon* will consist of 100 specially-marked posts that will flesh out the Vekllel Islands in a way that is unique to world building. [Read the post here](#).
- **There are several new articles on [millmint.net](#)**
  1. There is a new /state/ section, featuring government articles from the Interior, Commonwealth and Crown parliaments. I’ve already completed some Ministry articles, so check them out [here](#). These include:
    - ♦ [Ministry of Commerce](#)
    - ♦ [Ministry of the Commonwealth](#)
    - ♦ [Ministry of Defence](#)
    - ♦ [Ministry of Light and Water](#)
    - ♦ [Commonwealth Security Secretariat](#)
  2. There are several new articles about Vekllel. These include:
    - ♦ [State Assets of Vekllel](#)
    - ♦ [Finance in Vekllel](#)
    - ♦ [Metaphysics in Vekllel](#)
  3. There is a new documents catalogue, featuring short docs from the Vekllel government (or ‘4th Commonwealth’). They outline the creation of a new society, and will appear in articles.
- **I have made several improvements to the website**
  1. All Vekllel posts now have been moved to /stories/ and now have custom URLs, rather than a string of numbers and a keyword. This improves readability and organisation, and existing links will forward to their new URL. For example: [millmint.net/posts/2022-08-06-crown/](#) → [millmint.net/stories/crown](#).
  2. This update works as a shortcut to article URLs too, and makes a huge difference while preserving the content structure. For example: [millmint.net/utopia/society/technology/computers/](#) → [millmint.net/computers](#). Neat! Easier and more legible links!
  3. Be sure to keep up-to-date with updates to the site at [MillMint News](#).

Regards,

Hobart.
